Contents

Introduction       page 7

All about cross country       page 8
Tools of the trade       page 10
    The man
    The machine

Part one - the basics       page 15

Landings       page 16
    The circuit
    Final approach
    Variables of the landing pattern

Field landings       page 26
    What is an outlanding?
    Decision heights
    Field selection
    Circuit planning
    Setting up the final approach
    Impossible landings
    After the landing
    Outlanding guides

The speed polar       page 42

Climbing techniques       page 46
    Flying the glider
    Finding the thermal
    Entering the thermal
    Centring
    When and how to leave the thermal

Cruising techniques       page 60
    Mc Cready’s theory
    Limits of the theory
    Mc Cready simplified

Safety       page 66
    Lookout
    Currency
    Knowing your glider
    Spin familiarity
    Safety in thermal flying
    Safety in ridge flying
    Knowing your limits
Part two - flying cross-country

Climbing strategies
Finding lift
Selecting lift
The working height band
Being low
Blue days

Cruising strategies
Lift patterns
Energy routes
Cloud streets
Following high terrain
Convergences
Dolphin flying
The long glide
The final glide

Practice
Reading the sky
Reading the terrain
Finding a purpose for every flight
Bad habits
Centring, climbing and more games
Mini-tasks

D-Day
Picking the day
Task selection
Preparation
Selecting wing loading
The start
On course
Navigation
Finishing the task
Part three - making it better

Psychology and physiology
Motivation
The mindset
Intuition and decisions
Physical and psychological disease
Nutrition, hydration and rest

Glider tuning
Maintenance and small improvements
Greater improvements
Onboard systems
Ergonomics and comfort
Weight and balance
Instruments

Flight analysis
The quality of decisions
Flight analysis tools
Climbing performance
Gliding performance
General information
Comparing flights

Broadening your horizons
Two seater flights
Lead and follow
Training weeks
Competitions
Flying from new locations
FAI badges and virtual competitions
