

Segelflug- Bildkalender 2010

We are proud to present the **41st issue** of the annual Soaring Calendar, with 13 fabulous colour photos showing a wide range of beautiful sailplanes and landscapes. The rear face of each monthly page has an extended description in English, French and German. Subjects include the very newest sailplanes, "jet-flying

made easy", much-loved vintage and veteran gliders, flying over the Mojave Desert and historic early attempts at flight. This exciting range of subjects is rounded off by: "Four generations of the same flying family" and "Hans Jacobs' Rhönsperber". Each page is 48 x 29 cm with a fold-out monthly calendar panel.
